

ADVANTAGES OF FOAM

Foam provides maximum contact time for chemical effectiveness

Foam reduces the amount of labor needed to clean the aircraft

Foam offers savings in chemical and water usage

Pump-Up Foam Unit

SPECIFICATIONS

Dual polyurethane tubing

Adjustable needle valve for foam control

2 gallon capacity

Glass filled polypro foam wand

15° fan tip for increased coverage

The Pump-up Foamer technology provides innovative spot cleaning and sanitation solutions for the industrial and institutional markets. Patented dual tube technology draws the chemical and compressed air from the tank into separate tubes creating thick foam when mixed at the trigger foam wand. Flow in the air tube is controlled by a needle valve giving the user the ability to control the consistency of the foam.
